Implementation period:	July 16 (Mon) ~18 (Wed), 2018
Venue:	Hanoi City, Socialist Republic of Vietnam Hanoi University of Industry (HaUI)
Job trade:	Turning 2nd grade / Milling Machine 2nd grade
Lecture / Workshop:	Skills Evaluation Method
Instructor / Expert:	Mr. Fumio INAGAWA (Technical Advisor, SESPP Secretariat)
Participant:	6 persons

### Implementation schedule

Date	Contents
July 16 (Mon) 08:30AM~04:30PM	<b>【Skills Evaluation Method】</b> Lecture: How to create Theoretical Exam Questions (True-False) for Turning 2nd grade
July 17 (Tue) 08:30AM~04:30PM	<b>【Skills Evaluation Method】</b> Same as above
July 18 (Wed) 08:30AM~04:30PM	<b>【Skills Evaluation Method】</b> Lecture: How to create Theoretical Exam Questions (True-False) for Milling Machine 2nd grade

## 2. Review of the course

### General review

- In the training this time, collections of exam questions of True-False for turning 2nd grade and milling machine 2nd grade have been completed. It allows to prepare the exam questions of the skill test for six times for turning and four times for milling machine by using them. Also, it is possible to greatly increase the number of times on the preparation if you use 30% of the total questions over and over (7 out of 25 questions).  
It can be expected that the collections of exam questions will be much more useful after revising and adding questions in the future.
- Through the lecture on how to create exam questions this time, participants seemed got a hang of creation of exam questions corresponding to the job criteria and details.
- In the future, it can be expected that the participants of this time will play a role as a leader when revising the collections of exam questions.
- The skills evaluation training for turning 2nd grade and milling machine 2nd grade will take place in September and November. Once the collection of exam questions of multiple choice has been completed in the lectures, it can be said that the foundation to

independently and continuously carry out the skills evaluation test on the Vietnam side has been built.

### 3. Results of questionnaire

Participant (Respondent : 6 persons)

Satisfaction level: very satisfied=6 persons

Effectiveness: very effective=6 persons

SESPP needs: strongly wish=6 persons

Q: What was the most meaningful program at the workshop?

- Exam questions creation method based on framework of comprehensive and deep knowledge.
- Logical creation method of the collections of exam questions based on framework of particular knowledge.
- The exam questions creation method of turning work.
