October 24th (Thursday) 8:30 - 11:25	① Module 2: Assignment of Optical (continued from the previous day) ② Module 2 Evaluation (evaluation time per competitor: 40 minutes) ③ Q&A session ④ Summary

3. Reviews

Initially, there were no training courses available for this trade. However, with the support of SESPP provided, participants learned how to administer a skills competition, develop competition assignments and evaluation criteria, and carry out evaluation. This year, as a culmination of these efforts, a mock competition was successfully held at the 9th Cambodian National Skills Competition, featuring impressive content and a high level of organization. The skill level of the competitors was also exceptional, and with continued training, we believe they will be well-positioned to aim for a medal at the ASEAN Skills Competition. We look forward to seeing them further refine their skills and are committed to offering support wherever possible.

4. Questionnaire Results

◆ Experts: 3 (Respondents: 3) (* 5-point scale)

Satisfaction level: 5: Very satisfied = 3

Usefulness level: 5: Very useful = 3

Needs of continuation in other trades: 5: Must continue = 3

Proficiency level: 5: Strongly agree = 2 4: Agree = 0 3: Neither = 1

【The points that you noticed as a participant by having participated in the mock competition as the culmination of INC training (your Improvements, reflections and achievements)】

- I was able to gain valuable knowledge and hands-on experience.
- Because of the shortage of equipment for the competition, existing equipment is used. Any support in this matter would be appreciated..
- I am very pleased to have had the opportunity to participate in this competition. However, I need to improve my ability to fully evaluate the technical aspects of the assignments created by competitors. On the positive side, I am satisfied that I was able to effectively manage and administer the competition.

【Opinions, comments, and preferred trades for the future】

- I would like to see training courses, such as SAT, implemented to further develop the skills of experts in this trade. (2)
- Plumbing

◆ Manager: 1 (Respondents: 1) (* 5-point scale)

Needs of continuation: 5: Must continue = 1

【The points that you noticed in conducting mock competition at this Cambodian Skills Competition (Points to be utilized in the future, reflection, achievements, etc.)】

- We greatly appreciate Japan for initiating this area of expertise for Cambodian students and instructors and for supporting the implementation at the national skills competition. The participants showed great interest in the initiative.
- Regarding the competition, we kindly request that you consider providing training for the staff of the Directorate General of Technical Vocational Education and Training (DGTVET) on the competition format and technical content, particularly on preparing the competition venue and enhancing the knowledge of both competitors and experts. Additionally, as the implementing party, we would greatly appreciate it if you could provide us with documentation that can serve as future guidelines.

【Opinions, comments, and preferred trades for the future】

- I would appreciate it if you could offer future training courses at a similar level, focusing on the skills required for this trade.
